## **COMMERCIAL PROPERTY – ELECTRIC UTILITY SAVINGS!**

May 11, 2009

Dear Friends,

I would like to take this opportunity to share with all of you a money-saving offer that Brown CPA Group, Ltd. has been taking advantage of. This program was brought to our attention by one of our clients, David Wiers at Satori Enterprises, L.L.C. David can be reached at 312.850.2300.

You can save 10% on your commercial electric bill by contracting with MidAmerican Energy. MidAmerican has been serving the Illinois electric market since the beginning of deregulation in October 1999. They are a reseller of electrical power. We haven't experienced any problems with our electricity and we have saved money! You pay the same Com Ed bill that you have always paid, less the discount offered by MidAmerican Energy.

I'm attaching a copy of the paperwork necessary for you to start saving money on your electric bill. Unfortunately, this offer does not yet apply to residential electric bills.

Should you have any questions regarding this money-saving opportunity, please contact David Wiers at Satori Enterprises, L.L.C. directly.

Sincerely,

A handwritten signature in black ink, appearing to read 'Arnold D. Brown', with a long horizontal line extending to the right.

ARNOLD D. BROWN  
Certified Public Accountant
